

## No Scalpel Vasectomy (NSV) Equipment and Supplies List

### Sterile Instruments:

- Ringed clamp (3.5mm ok, cantilevered) [we suggest two for new clinicians]
- Dissecting forceps (Surgical Hemostat). Set of 1 VE-1 Li Brand™ Ringed Forceps and 1 VE-2 Surgical Hemostat
- Iris/straight scissors (optional as could use cautery tip to hemitransect vas)- 4.5", straight
- Cautery unit and sterile/sterilizable tips
- Surgical clip applicator- medium size, 6" long, curved tip.
- Fine tissue forceps or mosquito clamp- Halstead Surgical Clamp or Adson-like, small (~4.5")
- Sterile gloves (6 ½ non-latex)
- Sterile fenestrated drapes
- Sterile gauze

### Also:

- Scissors/razor for clipping scrotal hair that would interfere with the procedure
- Antiseptic agents for the surgical scrub
- Antiseptic solution for cleaning the operative area
- 5-cc syringe with a 1 inch 30 gauge needle (or Madajet)
- 1% or 2% lidocaine without epinephrine
- Supplies for vasal occlusion (cautery unit with sterilized tip; surgical clips, hemoclip applicator)
- Adhesive tape or Band-Aid for dressing the wound
